- Tour of the Aviator College of Aeronautical Science & Technology.
- Presentations on the St Lucie County Fire and Rescue as well as Sheriff's Aviation Department.

EAA Chapter 908

Chapter 908 was named St. Lucie Public Schools Business Partner of the year in 2015

Summer Program Objective

This 6-week program is designed for high school students who want to explore the field of aviation and find new and interesting ways to challenge themselves. Learn about careers and tour several local facilities both on and off the Treasure Coast International Airport Facility that are dedicated to aviation and offer interesting careers. Students will be exposed to what it takes to earn a private pilot certificate and explore scholarship opportunities that just might help to make their dreams a reality. Students serious about studying to earn a private pilot certificate will be eligible to participate in an online ground school program offered by the EAA Young Eagles in partnership with Sporty's Pilot Shop at no charge.

Freshman through Senior
