President's Corner - (continued)

- ✦ **Hanger Roof:** Still in progress. Discussion Saturday.
- ✦ **Taxiway Delta 1 Construction:** The construction has been delayed due to construction planning, scheduling and relocating gopher tortoises. The new construction date is **mid November**. **At this time we still have access to the airport. More on page 6.**
- ✦ **Airport security badges:** are now available. If you have to move your plane to the Tiki ramp during the Delta construction make sure you have the up dated badge.
- ✦ **Airport courtesy cars:** Dave Johnson sent me a link and guide to airports that provide courtesy cars. Great resource for finding what airports provide this service, check it out. <https://www.airportcourtesycars.com/>
- ✦ **Young Eagles: Sign up list at the chapter.** Because of the proposed construction on Delta 1 in October we moved the location to the main terminal (administration building). Even though the construction date was moved all the advertising was already in place when the start date was changed..
- ✦ **ADS-B rebates:** The FAA has reinstated the ADS-B program. \$500.00 rebate extended for approximately 1 year or until the appropriated funds run out.
- ✦ **Light Sport (LSA):** The FAA is hinting there may be a new weight limit for LSA eligible aircraft. In January a new ruling will be “ a notice of proposed rule making” to increase the LSA weight from 1320# to 3600 #.More on this as it develops.
